**DECLARATION OF CARTER J. WHITE  
IN SUPPORT OF PETITION UNDER 37 C.F.R. § 1.47(A)**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

I, Carter J. White, hereby declare the following:

1. I am currently employed as Patent Counsel for M-I L.L.C., a Delaware Corporation having a business address of 5950 North Course Drive, Houston, TX 77072. I am licensed to practice law in the States of Texas and California and registered to practice before the U.S. Patent and Trademark Office. At the time of each of the following occurrences, I was employed as Patent Counsel for M-I L.L.C.

2. On or about April 12, 2004 I mailed a letter via Certified Mail – Return Receipt Requested including both a declaration document and a copy of the patent application to the last known address of Mr. John Powell. A true copy of this letter is attached as Exhibit A to this

document. Included in the April 12, 2004 letter is a request that Mr. Powell review the patent application and execute the declaration document in compliance with the terms and obligations of Mr. Powell's employment by M-I L.L.C. at the time of the conception of the invention.

3. On or about April 20, 2004, I received a signed Domestic Return Receipt indicating receipt of the letter as addressed. A true copy of this document is attached as Exhibit B to this document.

4. On or about April 26, 2004, at approximately 11:30 AM, I received a telephone call from a person identifying himself as Mr. John Powell. Mr. Powell confirmed to me that he had received my letter of April 12, 2004 including the patent application and declaration documents. Mr. Powell stated that after his review of the papers, he did not believe that he was an inventor of the claimed subject matter. Mr. Powell stated that the basis for this belief was that "this is nothing new" and that it was known and being done "by everyone in the industry." Mr. Powell also stated that "There is no reason to pursue a useless patent if M-I is not willing to market and sell the technology." I indicated to Mr. Powell that M-I intended to pursue the patent application, and that we would like him to sign the papers. In response Mr. Powell said, "M-I can do whatever it wants, but I'm not going to sign these papers."

5. At the conclusion of my telephone conversation with Mr. Powell, Mr. Powell indicated to me that the invention was known back in 1991 as the M-I product Casing Pack. Further Mr. Powell alleged that this same fluid was used 'on numerous wells for B-P and ARCO.' I asked Mr. Powell if he could please send me any information to support these

statements. In response, Mr. Powell agreed that he would send me the supporting information and that he would also send me information about a company located in Mandeville, Louisiana that he said had been using the technology for years. As of the date of this statement, I have not received this information.

I hereby declare that all statements made of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
